Omega Maritime is a leading provider of Oil & Gas drilling services, and specialty focused Equipment; serving the drilling, production and decommissioning related needs of oil and gas companies around the Nigeria, and Western African Countries.

We are one of the few service providers capable of serving the life cycle of drilling activities with support services and services necessary to produce and maintain both offshore & onshore detail wells services.

We believe our ability to provide our customers with multiple services and to coordinate and integrate the delivery of these services allows us to maximize efficiency, reduce lead time and provide cost-effective services for our customers.

Over the years, we have significant joint Drilling Partnership with Major Drilling Rig Manufacturer and Drilling Equipment Support Masters, which have allowed for our expanded geographic scope of operational expansion in the Niger-Delta, by enhancing our local content, setting up bases, in Port Harcourt, Owerri and Warri for our varying related services we provide to multinational producing companies.

Omega Maritime's operations are well organized in divisions, Work-over, Mud/Drilling Fluid, well testing, well overhauling/simulation, wellhead, drill pipe rental, cased hole logging, directional drilling, plugging, coiled tubing, pumping, well crisis management services, and other drilling services.

MISSION STATEMENT

Our mission is to provide high quality service to our customers through total commitment to innovative engineering and the best combination of technical and human resources. We advocate total commitment to efficiency and Quality Management of project(s) without
